Dear Sir / Madam,

We hope you are doing well.

We would like to inform you that, due to recent global economic developments, there has been a significant increase in input costs. The ongoing geopolitical situation in various regions has led to fluctuations and sharp increases in foreign exchange rates, particularly the Euro and US Dollar against the Indian Rupee (INR). This has directly impacted on the cost of imported equipment, reagents, and consumables.

Despite our best efforts to absorb these increases, the sustained rise in costs has made it necessary to revise our pricing, resulting in an increase of 20-25%. Accordingly, the revised prices will be effective from 1st April 2026

Please be assured that we remain committed to providing you with high-quality products and reliable service support. We have taken this step only after careful consideration and will continue striving to minimize the impact on our valued customers.

We sincerely appreciate your understanding and continued support. Should you require any further clarification, please feel free to contact us.

Thank you for your continued trust and partnership.

Warm regards,
Yours sincerely,
